

RADDO BUILDING SOLUTIONS

Building Solutions | Built on Experience | Driven by Excellence

Our Associates :

Our Profile

RADDO Building Solutions (RBS) is driven by a vision to deliver reliable, innovative, and high-quality building solutions that meet the evolving needs of our customers, both in Industrial and Commercial segments.

We specialize in the Design, Fabrication, Supply, and Erection of Structural Steel Buildings, including comprehensive Roofing and Cladding solutions. Our expertise extends across a diverse range of Industrial, Commercial, and Infrastructure applications, enabling us to provide customized, efficient, and dependable solutions tailored to each project's requirements.

At RBS, we are committed to deliver excellence through Innovation, Quality, Safety, and Customer satisfaction. We strive to build long-term relationships found on Trust, Reliability and Value.

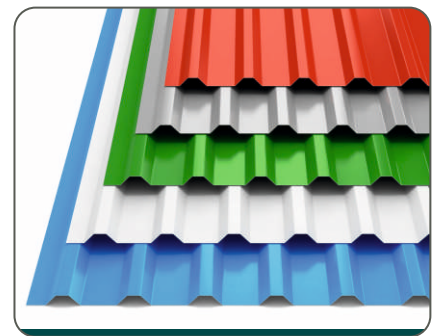

RBS Product Portfolio

► COLOUR COATED SHEETS (PPGI AND PPGL SHEETS)

We offer Roofing solutions, providing high-quality trapezoidal profile sheets, which has long-term durability, a spectrum of colours, special metallic coating, and aesthetic beauty to enhance the appearance and value of the building. It has two grades of materials: PPGI, which is Pre-painted Galvanised Sheet with Galvanised coating to the base metal, and PPGL, Pre-painted Galvalume Sheets which have an alloy of Zinc and Aluminium on the base metal.

Thickness: 0.35 mm, 0.40 mm, 0.45 mm, 0.5 mm and 0.6 mm

Standard Colours: Sky Blue, Off White, Grey, Mist Green & Brick Red

► SANDWICH PANELS

Sandwich PUF panels are used for Roofing, Wall cladding, and Cold Room Applications. PUF insulation panel is of high quality and consists of two facings of relatively metal sheet profiled of high strength and density core. PUF panels are available from 30mm to 120mm thickness.

Customised sheets will be made as per orders, as per sizes, colours and thickness.

► Roofing Accessories

We offer a wide range of accessories like Gutter, Flashing, Ridge Caps, Louvers, Downpipe etc. which are manufactured out of the same material used for Roofing and Cladding to ensure equal quality and Durability

Length: Customised lengths will be done against orders.

► Z & C COLD ROLLED PURLINS

Z and C Purlins are formed from high tensile GI steel coils and used as a support for framed structures available in 120GSM & 275GSM. Purlins are designed to be used as secondary support for Roofing and Cladding applications. Purlins are available in customised lengths and dimensions as per requirement.

Thickness: 1.2mm to 2.5 mm

► ROOF TURBO VENTILATORS

Turbine Roof ventilators are designed and engineered to Exhaust the Hot air, Waste gas, Dust, Humidity, Harmful gas and many more invisible irritants from the workshop so as to better the working surroundings.

Base: 24inch Diameter ventilator comes with Polycarbonate base, FRP Base and Aluminium Base & SS base

▶ GLASSWOOL & ROCKWOOL INSULATION

Glass wool is an insulating material made from Fibres of Glass arranged using Binder into a texture like wool.

Rockwool is any Fibrous material formed by Spinning or drawing Molten Material or Rock materials such as Slag ceramics. Its used for Thermal insulation, Filtration, Soundproofing and Hydroponic growth medium.

Thickness: 40mm, 50mm, 80mm, 100mm

▶ PORTABLE OFFICE CONTAINER

A Portable Office container is a Prefabricated Modular Structure designed to provide a comfortable and Functional Workspace. It is manufactured using a Strong steel frame with Insulated Sandwich Panels or Calcium silicate Boards for Walls and Roofing, ensuring durability, Weather resistance, and Thermal insulation.

The office container can be customized with Doors, Windows, Electrical wiring, LED lighting, Power sockets, Air conditioning including complete Interior as per requirement.

Applications: Portable Offices, Security Cabins, Toilet Cubicles, Labour Camp Office Container

▶ LED LIGHTS

We support project-specific lighting requirements by offering suitable product selections based on Application, Installation conditions, Illumination requirements & Energy efficiency.

Our range can be Tailored to meet the needs of Architects, Electrical consultants, MEP consultants, Contractors, Builders, Facility managers, and Industrial customers.

▶ Industrial & Modular Switches

We offer a comprehensive range of electrical Switches and Sockets designed to meet the requirements of Commercial, Industrial & infrastructure projects. Our product range combines Modern aesthetics, Functional design, Safety, and reliable performance to support efficient Electrical installations.

From Standard Modular Switches to Advanced Electrical Smart Switches, our Solutions Cater to diverse applications, offering flexibility in design, installation, and functionality.

▶ INDUSTRIAL AIR-COOLERS

Industrial Air Coolers are high-capacity cooling systems designed to provide efficient, energy-saving ventilation and cooling in large industrial and commercial spaces. They use evaporative cooling technology to deliver fresh, cool air while improving air circulation and workplace comfort.

Few Applications Area are: Manufacturing Plants & Factories, Warehouses & Storage Facilities Workshops & Production Areas, Commercial Buildings & Showrooms

▶ OFFICE INTERIORS

we offer comprehensive office interior solutions designed to create modern, functional, and aesthetically appealing workspaces. We focus on optimizing space utilization, enhancing workplace productivity, and delivering interiors that reflect our clients' brand identity and business requirements.

Our solutions include modular workstations, executive cabins, glass partitions, false ceilings, flooring, electrical and lighting systems, reception areas, conference rooms, and customized furniture. From concept to completion, we emphasize quality, functionality, efficient execution, and attention to detail.
